

CRISTIAN SERNA

FULL STACK DEVELOPER || CIVIL ENGINEER

📍 Medellin-Colombia

I am a Civil Engineer with a strong interest in technology, specifically software development. I have experience with various technologies for Frontend and Backend development. I am highly intellectually curious and constantly seeking to learn and improve in all aspects of my personal and professional life

EDUCATION

2022 - 2023

Certified Tech Developer

Graduate - Digital House

2016 - 2021

Professional Degree in Civil Engineering

Graduate - Universidad de Medellin, Medellin-Colombia

PROFESSIONAL EXPERIENCE

Full Stack Developer

2022

Ovniric Booking.

Integrative project carried out within the framework of the Digital House school. It is a Booking developed by 5 students, its construction was carried out implementing agile scrum methodology, the technologies implemented were React spring boot, infrastructure deployment in AWS, and management of the MySQL database.

WORK EXPERIENCE

Bilingual Voice Agent

2021 - 2022

24/7 AI, Medellín

Experience as a bilingual customer service agent for an American supermarket chain called BJ's. During my time in this position, my ability to find efficient solutions in a short time was highlighted.

Intern

2020 - 2021

Estructurar Infraestructuras, Medellin

Experience as an assistant in construction projects, providing ideas and solutions to problems related to civil works.
